Single global partner

Our reputation is built on traditional values of providing quality, personal service combined with continued investment in people and industry-leading technology.

We support clients actively doing business on the ground in over six continents and more than 60 territories, with excellent coverage in Europe and Asia.

Each client is assigned a dedicated client manager; a named contact who acts as their business partner, to manage all their operations. This gives clients a single point of contact.

We help our clients avoid pitfalls. The compliance requirements for management reporting and payroll do vary by country and we can highlight potential issues in advance.

Delivered through technology

We work in a single, secure environment which is independently audited and covered under our Type II SOC 1 Report. These systems have passed bespoke audits from NYSE and FTSE 100 listed groups.

Our investment in technology such as SAP Business One and Concur means we are uniquely placed to support our clients' changing needs and complex reporting requirements.

- A single online client portal for all your territories and companies
- Fully automated expenses management system
- Invoice and document approval system
- Document and information management system

The video on our website demonstrates how this improves our client experience, as well as simplifying the process for employees claiming back their expenses. You can view the video at <http://www.brgbs.com/Technology/Our-Technology>

Quality, integrity and diversity

We combine the expertise of a larger organisation with the approachability of a smaller advisor to deliver a quality service. In our most recent client satisfaction survey, 97% of clients said that they would recommend our services.

We are proud of our diversity. Our Global Business Services team based in London speak over 20 different languages, enabling us to support clients in their native language.

Blick Rothenberg offers a supportive, friendly and challenging work environment for those who are globally minded and seeking to excel in today's world.
